NRG
NATIONAL RETAIL GRAPHICS

ARTWORK SPECIFICATIONS

Please Include the Following With Your Layout:

- A color proof printed in CMYK color mode to help us match your colors as close as possible
- A list of the colors used-either the CMYK mixtures or the PMS Numbers (solid coated) along with file print size
- Include all screen and system fonts to ensure proper typesetting.

Media Types Accepted:

Files can be submitted on CD, DVD, floppy disk, a PC formatted Zip disk only or via our FTP site.

To access the FTP site using a PC: Open Internet Explorer and go to URL:

ftp://nrgc:nrg579@nrg-corp.com

From there you can drag and drop your files into the open window.

To access the FTP site using a MAC: Open your ftp software (Fetch, Transmit, etc...)
Enter host name: ftp.nauticom.net
username: nrgc   password: nrg579
Then drag and drop your file in the specified folder.

*when using the ftp site to upload your file, please contact us so we can insure that we receive it properly.

Resolution:

Files at 100 dpi-200 dpi at full print size will allow us to deliver the best quality output that you desire. The resolution should depend on the application of the artwork.

File Format:

PC and MAC formatted files are accepted.
We can accept art in the following programs/formats only:

Adobe Illustrator CS (or lower)
Adobe Photoshop CS (or lower)
QuarkXpress 6.1 (or lower)
Corel Draw 12 (or lower)
FreeHandMX

note All vector based type should have outlines created to ensure proper font usage.

Make sure all links are updated, in CMYK color mode, and available for upload of file.
Artwork corrections and/or revisions may be subject to be billed at a separate hourly rate. Please supply a layered copy of your file in case critical corrections are needed to be made.
If you wish to have your artwork disk returned, please indicate and provide a shipping address to where it should be mailed.
*NRG is not responsible for art that is left with us.
